SUBMERSIBLE TRAILER LIGHTING

Stop / Rear Position / Rear Direction Indicator Combination Lamp with Number Plate Light

HELLA LED trailer lights now come in a new 9 metre cable length for full run water resistance. Fully sealed lamps, complete wiring run ingress protection, and a 'click-in' mounting base make for the ultimate easy install trailer lighting solution.

Available in 0.5m, 6m, and 9m wiring lengths, each lamp is impervious to dust and moisture for "Fit and Forget" reliability. The lights are ADR compliant, and road legal in New Zealand. They are also available as a complete installation kit, featuring the full range of on road functions:

- Stop / Brake
- Rear position / Park
- Rear Indicator
- Number plate light (One side)
- 18cm² Red reflector

TRAILER LIGHTING

Submersible Combination Lights

Suitable for trailers, Utes, and small trucks, the combination trailer light provides convenient installation, with a base featuring flexible and easy mounting, which the light body simply clicks into.

Built with impact and shock resistant Grilamid® lenses, UV and corrosion resistant materials, and designed to withstand high-pressure washing and temporary immersion, these lights deliver long service life and true "Fit and Forget" reliability.
